COLOUR FASTNESS TO RUBBING	EN ISO 11640	20 cycles wet	≥ 3 min (Grey Scale)
	EN ISO 11641	50 cycles dry	≥ 3 min (Grey Scale)

BRUSIO PRODUCT INFORMATION:

Type: Semi Aniline
Source: Italy
Average Hide Size: 5.0m²
Thickness: 0.9 - 1.1mm

BRUSIO is a semi-aniline leather, produced on the finest European raw material. The distinctive matte appearance and handle of BRUSIO is created by lightly brushing each hide with beeswax. This accentuates the supple, matte-wax texture in the hide and results in an incredibly soft touch to the leather.

BRUSIO has a distinctly velvet-like handle and each hide will exhibit a unique character and texture. The colour range embodies subtle, natural hues with distinctive shadowy undertones. BRUSIO is suited to a broad range of traditional and contemporary furnishing and wall applications.

BRUSIO will develop a beautiful patina over time and exhibits excellent protection and wearing properties. Its appearance will enhance with use, often characterised by darkening of body contact areas. BRUSIO is suitable for all residential and commercial environments.

All colours are in stock and available for immediate off-the-shelf delivery.

Custom colours are available on request.

COMPANY ENVIRONMENTAL NOTES:

BRUSIO is produced in Italy by an ISO 14001 certified company. The tannery also carries the ISO 9001 Quality Certification.

The tannery manages all production, laboratory and effluent processes in-house, employing a full time chemist to oversee the process and ensure the tannery adheres to the most progressive standards and industry-leading processes. The tanning group has been at the centre of Environmental reform in the industry and is one of few tanneries to operate its own water purification plant. The tannery has received industry awards for its environmental processes and water treatment quality.

BRUSIO is produced using only water-based dyes.

All tannery wastage (liquid, gas and solid) is treated according to European Standards on-site and again at a shared off-site facility.

Detailed product and tannery environmental notes are available on request.
