	IUF 450	30 cycles wet	≥ 4 min (Grey Scale)

BRITANNIA PRODUCT INFORMATION:

Type: Waxed Pull-Up
Source: Italy
Average Hide Size: 5.0m²
Thickness: 1.0-1.2mm

BRITANNIA is a waxed aniline leather, produced on English Steer hides. BRITANNIA has an aged appearance, coupled with a slight 'pull-up' effect, which creates a sharp burst of colour from under the surface. The pull-up effect gives the product a distinctive appearance that embodies old-world charm and sophistication.

BRITANNIA has an exceptional handle and is suited to both traditional and contemporary furniture. It is a unique upholstery choice, creating distinguished and luxurious pieces.

BRITANNIA has been lightly protected and is suitable for a variety of residential and commercial environments. It will exhibit areas of light and dark as it ages, adding to the appeal of the product.

All colours are in stock in our European warehouse and available for immediate off-the-shelf delivery.

Custom colours are available on request.

COMPANY ENVIRONMENTAL NOTES:

BRITANNIA is produced by Crest Leather - an ISO 14001 certified company. This ISO Standard recognises organisations that are committed to environmental management and operate in an environmentally sustainable manner.

The company also carries the ISO 9001 Quality Certification, which recognises its quality and management systems throughout its global operations. Their commitment to environmentally responsible production has led to partnership programs with many of Europe's leading green companies in the fields of automotive, aircraft, marine, garment, footwear and upholstery leather production.

BRITANNIA is produced using only water-based dyes.

The tannery utilises some of the most advanced waste management techniques in the industry, with all tannery wastage (liquid, gas and solid) treated to European Standards on-site and again at a shared off-site facility.

Detailed product and tannery environmental notes are available on request.
